

3rd International Conference on Compute and Data Analysis

University of Hawaii Maui College, USA, March 14-17, 2019.

<http://icdda.org/>

ICCCA 2019

ICCCA 2019 provides a scientific platform for both local and international scientists, engineers and technologists who work in all aspects of Compute and Data Analysis. In addition to the contributed papers, internationally known experts from several countries are also invited to deliver keynote and invited speeches at ICCDA. The papers to be presented at ICCDA 2019 will be peer-reviewed by experts from all over the world. We will be thankful for the contributions to ICCDA series. We look forward to your participation and continued engagement at future ICCDA conferences.

Conference Proceedings

Conference Papers (Full Paper) will be published in the International Conference Proceedings Series by ACM with ISBN (978-1-4503-6634-2), which will be online and indexed by **Ei Compendex, Scopus**.

Important dates

- ★ **November 10th, 2018 - Submission Deadline**
- November 30th, 2018 - Notification Date**
- December 20th, 2018 - Registration Deadline (General)**

Submission

By Email: icdda_info@163.com

By Easy Chair: <http://www.easychair.org/conferences/?conf=icdda2019>

Venue

University of Hawai'i Maui College
Kaaike Building

Add: 310 W. Ka'ahumanu Ave., Kahului, HI 96732-1617

<http://maui.hawaii.edu/>

Call for Paper

General areas of interest to ICCDA include but are not limited to:

Foundations

Mathematical, probabilistic and statistical models and theories

Machine learning theories, models and systems

Knowledge discovery theories, models and systems

Manifold and metric learning

Deep learning

Scalable analysis and learning

Non-ridness learning

Data analytics, machine learning and knowledge discovery

Learning for streaming data

Learning for structured and relational data

Latent semantics and insight learning

Mining multi-source and mixed-source information

Mixed-type and structure data analytics

Cross-media data analytics

Big data visualization, modeling and analytics

Storage, retrieval and search

Data warehouses, cloud architectures

Large-scale databases

Information and knowledge retrieval, and semantic search

Web/social/databases query and search

Personalized search and recommendation

Human-machine interaction and interfaces

Crowdsourcing and collective intelligence
