

Call for Papers

The 5th International Conference on Compute and Data Analysis

Sanya, China | Feb. 2-4, 2021

Topics

- ♦ Machine learning theories, models and systems
- ♦ Knowledge discovery theories, models and systems
- ♦ Manifold and metric learning
- ♦ Scalable analysis and learning
- ♦ Heterogeneous data/information integration
- ♦ Data pre-processing, sampling and reduction
- ♦ Dimensionality reduction
- ♦ Feature selection, transformation and construction
- ♦ Large scale optimization
- ♦ High performance computing for data analytics
- ♦ Architecture, management and process for data science

More topics: <http://icdda.org/cfp.html>

Proceedings

ACM proceedings, EI Compendex & Scopus index

Past ICCDA papers were all published in ACM proceedings:

ICCCA20, ISBN: 978-1-4503-7644-0, EI, Scopus index

ICCCA19, ISBN: 978-1-4503-6634-2, EI, Scopus index

ICCCA18, ISBN: 978-1-4503-6359-4, EI, Scopus index

ICCCA17, ISBN: 978-1-4503-5241-3, EI, Scopus index

Co-organized by

Technical Sponsored by

ICCCA
